- Community Group hours: 200

Programs:

- **Equine Assisted Learning (EAL)-** School based program that partners teachers and the Strides staff together to design and implement authentic learning programs that foster positive behavior, teach life skills and are based on the Indiana Academic Standards. Primarily designed for use in elementary and middle schools as a behavior intervention program and an alternative to expulsion.
- **Equine Facilitated Psychotherapy (EFP)-** A mental health provider partners with the Strides staff to develop and implement treatment plans for individuals and groups. EAP is a more personal, in-depth therapy session and serves as an alternative to conventional "talk therapy". Strides specializes in adolescents that have suffered sexual or physical abuse and adoptive families. Our Pink Ponies program serves the local women's shelter and teaches life skills to prevent women from returning to their abusers.
- **Strides To Leadership-** Certified facilitators guide youth groups and corporate management teams through a variety of activities that enhance work performance by improving communication, efficiency, and productivity while having a great time! This is a tax-deductible staff development program that will support school programs for at-risk and disadvantaged youth.
- **Sharing the Strides Learning Model –** A nationally recognized two day workshop that teaches mental health and education professionals how to incorporate equine assisted learning into their classroom environment. Since 2005, centers representing 50 states attended this workshop. Our mission is to assist other centers in duplicating programs nationwide.
